

# 26 JAP WARSHIPS ARE SUNK OR DAMAGED IN CRUSHING DEFEAT BY U.S. NAVAL UNITS

## The War Today...

By DeWitt MacKenzie  
AP War Analyst

IT LOOKS AS THOUGH the Japanese had just about succeeded in committing hara-kiri in the great sea-battle off the Philippines. They have suffered a major disaster. Indeed, it may prove to be a decisive defeat which has smashed the main-spring of Nippon's sea-power and so will hasten the end of the Pacific war. However, we can appraise the situation fully until the complete report is at hand. This is a moment for exultation but not for loose superlatives.

While details are lacking it's clear that the Allied force (an Australian squadron participated) has dealt a devastating blow to Japan's first-line ships. This may have crippled the Mikado's navy—a calamity for him.

This column yesterday called the developing battle of the Philippines the crisis of the war in the Orient. Clearly the magnitude of the Japanese naval effort is recognition of this. But the Japs aren't the only ones to see the emergency. There are signs on every hand that this thought of crisis is in the minds of the Allied high command.

There's a gathering of the United Nations clams in the Orient for the kill. It isn't by coincidence that this comes as the great MacArthur strikes to redeem his pledge to free the Philippines. The method and concerted action are recognition that this is his crucial moment.

Australia is making big preparations to accommodate British forces. The vast Indian base is something with activity. The Royal Air Force in England already has completed plans to move a steady stream of warplanes to the Far East the moment Hitler yells quits—or somebody yells it for him. The British are moving a great naval fleet from England into the Orient.

OUR OWN GEN. STILWELL in China is rushing operations for the reopening of the Burma road to expedite the movement of supplies to the hard-pressed Chinese and to the American Air Force. The British are attacking again in Burma, with the ending of the Monsoon deluge. Lord Mountbatten's command is welding the spade in work preliminary to assaults against Japan's key positions in Indonesia.

So the steel ring tightens about

**Stark County Officer Dies In Plane Mishap**

FLORENCE, S. C., Oct. 26.—The Florence Army air base command announced today Capt. James H. Ullett, 24, of East Sparta, O., was injured fatally yesterday when a light bomber he was flying crashed four miles southeast of the field.

The field command said Ullett parachuted when trouble developed and a crash appeared imminent, but apparently was struck by the plane during its descent. His chute opened, but he was dead when reached by field rescue crews.

Survivors include his mother, Mrs. L. S. Ullett of East Sparta.

## ALLIES LAND ON GUARDIAN ANTWERP ISLE

### Canadian Troops Fight To Clear Nazi Guns Blocking Convoys

(By Associated Press) LONDON, Oct. 26—Canadian troops closed in on the last big German guns forbidding the use of Antwerp by Allied convoys today and Berlin announced that Allied forces had begun landing operations on Walcheren island, northern guardian of the sea approach to the port.

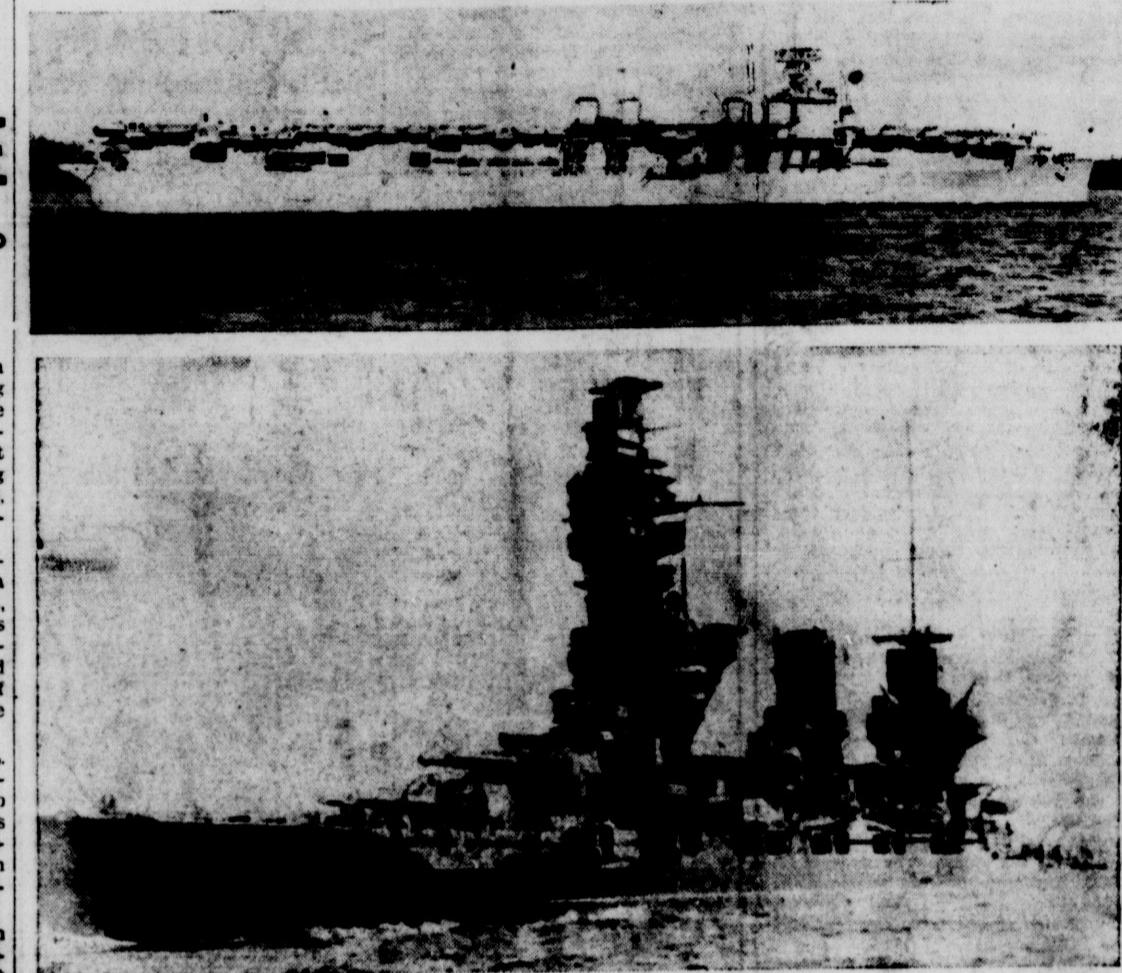

The landing operation on the island jutting into the North sea was being made on the south coast, Berlin said, and apparently was being carried out under the protection of fogs by forces which had swept the Germans from most of the pocket south of the Schelde estuary.

Field Marshal Sir Bernard L. Montgomery's pincers tightened relentlessly on Germans clinging to the water-logged deltas and islands of southwest Holland, with the enemy giving ground all the way from Bergen Op Zoom to 's Hertogenbosch.

Driving in from the east on 11,000 Germans trapped on Walcheren, the Canadians fought scored by Jap planes off Formosa. Her magazines exploded, and after 1,300 men, including the captain, were rescued, the carrier, sixth to be lost since Pearl Harbor, was sunk by American warships.

Below is pictured a huge Yamashiro class Jap battleship, one of which was reported sunk by U. S. Pacific fleet units near Surigao Strait in the great sea-air battle being raged in Philippine waters.

## Chicagoans Cheer Dewey, Await Roosevelt Talk; Independent Voters Worry Parties

By J. W. DAVIS  
Associated Press Staff Writer

Chicago, the exuberant metropolis which saw them nominated for president, is taking tugs again this week with demonstrations for Thomas E. Dewey and Franklin D. Roosevelt—demonstrations watched by politicians from midwest vote clubs.

To the east Montgomery's British Second army was breaking the back of German resistance in the Breda area south of the Maas (Meuse) with its attack toward the west from the Nijmegen salient.

The British captured Fort Orten, a mile north of 's Hertogenbosch and cleared the Germans from all the latter hub except the southwest corner.

They were within a mile of Tilburg, in the middle of the box having captured Zorgenz, 12 miles south west of 's Hertogenbosch.

The flanking thrust by an armored column north of 's Hertogenbosch cut the Nazi escape route over one of the three bridges leading over the Maas from the zone.

Dewey based his attack last night on the charge that Mr. Roosevelt lent his name to a plan "to sell special privilege" and a "voice in the formulation of administration policies" for one thousand dollars on the barrelhead."

\$1,000 Memberships

He read a letter signed by Democratic finance directors in Arkansas. It related that Mr. Roosevelt considered it "a good idea to have a list of one thousand persons organized together . . . to see that facts relating to the public interest are given." Dewey.

### Canterbury Archbishop, English Primate, Dead

LONDON, Oct. 26.—The Archbishop of Canterbury, the Most Rev. William Temple, died today after a heart attack. The primate of all England was 63 and had been enthroned in bomb-pocked Canterbury cathedral since April 23, 1943.

The Army total represents an increase of 18,179 for the interval between Oct. 6, the date covered by the previous report, and Oct. 14. In the same interval, Navy casualties increased 1,225.

United States army ground force casualties in Italy, from the original landings in September, 1943, to Oct. 16, numbered 91,063, an increase of 8,952 since Sept. 25.

### Truck Driver Fined In Accident At Crossing

BY DOUGLAS B. CORNELL  
WASHINGTON, Oct. 26.—The running jump which landed Rep. Joseph H. Ball of Minnesota on the Democratic side of the political fence has set the politicians to worrying anew about that mass of voters on top of the fence.

Allen was driving a truck Tuesday night on W. State st. and struck a car which had stopped to hear — and cheer — Republican Dewey as he tore into Mr. Roosevelt on "moral issues."

The President's turn will come Saturday in the far bigger Soldier field stadium.

Even those politicians who say that "minds are made up by now" will compare Mr. Roosevelt's reception with the one Chicagoans gave Dewey.

What the mass of independent voters are going to do or the amount of influence Democratic dissidents and Republican rebels are wielding is hard to gauge.

In borderline states, where a relatively few votes may swing the election, these factors are important.

Actually there have been few men high in the ranks of either party who have announced definitely that they will bolt. Ball is one who has taken an unmistakable stand.

He said he will vote for and support the reelection of President Roosevelt.

A Republican for Roosevelt committee has been organized on the west coast, headed by Bartley C. Crum, San Francisco attorney, who in forming the club, attacked the Republican platform on foreign affairs.

The message told the family that Pfc. Spack had been missing in action in France since Sept. 30, but gave no further information. The message added, however, that any further details would be forwarded to the family as soon as possible.

Pfc. Spack graduated from Salem High school in 1940 and after being employed by the Bliss Co. plant here entered the service April 23, 1943. He had been overseas three months. He first trained at Fort Meade, S. C., with the 88th Glider infantry.

LEETONIA, Oct. 26.—Mr. and Mrs. Joseph Baulo, 73 Washington st., have been advised by the War department that their son, Pfc. John A. Baulo, 23, was slightly wounded in action in France Sept. 11.

Pfc. Baulo, who is with the infantry, was inducted into the Army Oct. 27, 1940. He had been overseas three years, two years in Iceland before he was transferred to England and then to France.

### TOP GRADE MEATS UP FOR NOVEMBER

WASHINGTON, Oct. 26.—Postwar vehicular traffic will pose new dangers for both motorists and pedestrians, says Earl J. Reeder, chief traffic engineer of the national Safety council.

How much weight such pronouncements carry simply can't be measured. Nor can the influence of a number of prominent Democrats who have spoken and worked against the New Deal in variable degree.

Perhaps the most active of them is Sen. W. Lee O'Daniel of Texas, whose family is publishing an anti-fourth term newspaper which bears his name and the imprint of his political thinking.

Addressing the Ohio traffic engineering conference yesterday, Reeder asserted:

"Cars that have passed the retirement age, roads that are in bad condition and drivers who have become rusty from inexperience but who are saturated with the spirit of release will produce difficulties for the pedestrians as well as for themselves."

He suggested these partial solutions:

Provide sidewalks on all streets and highways where "an appreciable number of pedestrians can

be expected."

Install highway lights for the benefit of pedestrians before the road is opened for use.

Provide tunnels or overpasses for pedestrians at heavy streams of traffic.

HOPA estimated the supply of all meats moving into commercial channels for civilian use during the five-week November ration period beginning Sunday at 24 per cent less than the October average.

## No Fresh Mandate For Spoilers

Twelve years of Franklin D. Roosevelt have brought this country to the brink of peril for our representative form of government, the heart and soul of the Constitution, the means by which we maintain liberty and the pursuit of happiness.

What dangers lie ahead if there should be four more years?

What may we do to arrest the bokers from within, the crafty architects of a different America, tearing the house down stone by stone?

Run them over in your mind, these crafty architects—Hillman, Browder, Harry Bridges, Boss Kelly of Chicago, Boss Hague of New Jersey, Boss Flynn of New York, Ikeas, Ma Perkins, Harry Hopkins, Wallace Rosenman, Tugwell, Berle, Biddle.

If you want them you get them with Roosevelt.

They sneer at Tom Dewey as a small town boy, as an old-fashioned American, because he detests the intellectuals, the parlor pinks and the Communists.

And they fear him because he is the voice of millions of Americans who are determined to preserve our way of life.

They fear him because he is opposed to government by ruthless clique, because he believes that America should be for Americans and that Americans should be for America.

With Hillman and Browder and their ilk as arrogant as they are now, what will their attitude be if they succeed in re-electing Roosevelt? Where will their power end? If our interests should ultimately clash with those of Russia, at what point will these men make up their minds as to where their first loyalty shall lie?

Our country has been in the throes of political revolution, blown by the furies of a weird aggregation of little men with crackpot notions. We have had a government of patchwork, bureau piled upon bureau usurping the rights of congress to make law, thumbing a dictatorial nose at the will of the people.

These wily plotters against our nation's tradition claim the capture of the Democratic party, and good Democrats resent this to the core.

Whether they have captured Mr. Roosevelt, or whether he thinks he has captured them—these crafty architects of a different America—we do not know. It does not matter.

The spoilers go by different names, to add to the people's confusion. Some call themselves Communists, or did until it was more fruitful to go underground. They have clustered themselves in a snarling pack in the shadow of a national administration too weak or too power-hungry to put them in their place.

It is to protect and preserve this gentry that we vote on Nov. 7?

## Four Years On A Willow Limb

As Gov. Bricker says in disagreeing with Sen. Ball of Minnesota for liking Mr. Roosevelt's foreign policy promises better than Gov. Dewey's identical promises, there's no law against going out on a limb in an election.

It's going to be fun, though, to see what happens to the hardy souls who plan to spend the next four years on the willow limbs of Mr. Roosevelt's foreign policy if he is re-elected. Sen. Ball, for instance, elected as a Republican in 1942, has been critical of Mr. Roosevelt's government on domestic policy and shows signs of being the type that calls his shots as he sees them.

So here are Sen. Ball and other arborial adventurers facing the problem of how to be happy from day to day about Mr. Roosevelt's foreign policy, whatever it may be, while disagreeing with his domestic policy. Since they already know what to expect in the latter line, but have only the vaguest notion what will turn up in the former, it looks as though they had swapped their sense of reality for their hopes.

The fact is that Sen. Ball is going to continue to live in the United States—and it is the destiny of the United States we are going to vote on next Nov. 7, not the shape of a global never-never land peopled with politicians' easy promises. Mr. Roosevelt could have the finest foreign policy promises ever rolled off a glib tongue, but they wouldn't mean a thing without some vastly improved domestic policies to back them up.

## Our State Treasurer

From time to time, Ohio is fortunate in electing to state office some competent, keen-thinking, hard-working men. It is our observation that one who typifies those qualities today is young, energetic Don H. Ebright, who, we hope, will be returned to the state treasurer's office with a whopping margin of approval.

Don Ebright, as director of finance at Akron, performed his tasks with excellence and comprehension when that city made its way slowly out of the depression in 1936, '37 and '38. The people of Ohio accorded him recognition in 1938 by choosing him state treasurer, and they have called upon him twice since then to continue in that job.

The post-war days ahead, the complications of government finance as related to federal, state and local situations demand retention of his knowledge, experience and vigor.

## GUARDING YOUR HEALTH

## The Fruit Season

By LOGAN CLENDENING, M. D.

"SEASON OF mists and mellow fruitfulness," wrote Keats, in "Ode to Autumn." The favorite of my seasons brings to ripening the favorite table delicacies of my youth—the fruits.

The best things of life, the most pleasure giving, are always the most healthful. The Puritans, if any of

Dr. Clendening will answer questions of general interest only and then only through his column.

those are left, the health faddists who like to concoct sawdust meals and monstrous exercises, and rhythmic conditioning in one or another sphere of living would challenge this but it is a cardinal tenet of my philosophy.

Certainly among the best things of the table are the fruits—apples and peaches, pears, grapes, lemons, oranges. And they are among the most healthy. Talk about accessory food factors—the fruits lead the list of accessory foods. They are the vitamin bearers, the mineral bearers.

How many different kinds of refreshers to health and happy living that have not yet been differentiated by the biological chemists.

**Year Round Crops**

It used to be that they were exclusively the table delicacy of autumn. So suggests Keats, at any rate. Now we are likely to get them the year round. For this we have to thank modern engineering methods of refrigeration, food preservation, transportation and the development of fruit farming in some of our southern states and neighboring countries where there are possibilities of year round crops.

You cannot make a complete meal of fruit. They contain little protein, the flesh building chemical, and almost no fat. But the sugars they contain are sure fire energizers.

They are mostly simple sugars which enter the blood quickly after being swallowed and spark like high octane gas.

In vitamins and minerals the fruits lead all foods, however. Nature's own and greatest medicines.

Nearly all the fruits contain Vitamin C, technically the anti-scurvy vitamin. One doesn't like to think of it as associated with such a repulsive word as scurvy, however. It is the freshener of the blood, the brightener of the eyes and lips and tongue and the refurbisher of the skin.

Vitamin A, while not so plentiful, is found in apples, in good quantity in peaches, some in pears, prunes and tangerines.

Vitamin B is also found in apples, cantaloupes, berries, grapes, lemons, peaches, pears. There are two varieties of Vitamin B, water soluble and fat soluble and naturally the water soluble are predominated in fruits.

Fruits Contain Minerals

Nothing need worry about his body getting enough minerals as long as he eats plenty of fruit. Calcium, phosphorus, iron and sulphur are the essential minerals—the fundamentals, as one might say, and there

The Stars Say

For Friday, October 27.

AN UNUSUAL congeries of planetary forces should combine to make this a memorable day, with exceptional, thrilling and radical circumstances, which may cause sudden upheavals, swift turns on all plans and objectives, and high achievements in spite of irregularities and unlocked for changes. It is probable that romance, social, domestic or affectional festivities may overshadow all other interests, although enterprise initiative and industry should do much to put the affairs and fortunes on a firm and enduring basis. Elders and others assist to recognition and rewards for clever, faithful and constructive performance.

A year of splendid opportunity and achievement is indicated for those equipped and stimulated to concentrated effort, hard work, diligence, sound judgment and objectives in which elders and others of stability and power may be interested. There should be versatility, astuteness and initiative devoted to developments. But possibly the highest and most pleasant culminations and returns will be found in social, domestic and romantic festivities. Sudden marriages, even developments, may occur under such sidereal inspiration.

A child born on this day may have excellent talents and qualities of mind and character to assure it a romantic, secure and noteworthy career, despite reversals and turns of the wheel of fortune.

Time For Discussion

By James Thrasher

The American people, being now in the mood for debate, might keep right on after the elections with a discussion of the part they should like to see this country take in the international security organization which the Dumbarton Oaks conferees have christened the United Nations.

It would be a good thing both for the sake of the people and of the public servants who will finally make the direct decision on our participation. There are some divergent opinions to be reconciled before we can hope to take our place in this United Nations organization.

The sooner they are tackled and threshed out, the sooner our government can proceed in the assurance that it is backed by unity and good will.

Some questions have already presented themselves: Should the Constitution be amended to give treaty ratifying power to a simple majority of both branches of Congress, instead of to the present two-thirds majority of the Senate? How much authority should the permanent American member of the United Nations security council be given? Would the use of American troops in an international armed action against an aggressor require a formal American declaration of war, or would it be regarded simply as a "punitive action"?

These are only a start. And there would probably be plenty of acrimonious name-calling in these and later discussions. But a lot of bitterness might be avoided if, before the discussions started, responsible spokesmen for various schools of thought would define some terms heard frequently now.

For instance, what precisely does the Dumbarton Oaks agreement mean by "peace-loving states," to which membership in the United Nations is limited? Does "peace-loving" refer to popular sentiment or present government policy? Does "state" mean the people organized under a government, or the government itself?

And what is the "sovereignty" which some Americans insist must not be sacrificed to any international organization? Is it the sovereignty that our own states have sacrificed to the Union in defense, foreign relations, and a host of other matters? Or is it "the power that determines and administers the government," held, according to dictionary definition, "in the body of enfranchised citizens"?

Lasting peace is every American's hope. Its preservation is his concern. The best way to that preservation will not be found in cryptic creeds, vague warnings, enthusiastic generalities.

We must know what we are talking about before we try to make intelligent recommendations. And for that we need some explicit definitions from spokesmen for the several shades of American opinion.

## JAP NAVY DEFEAT MAY ALTER WHOLE COURSE OF WAR

(By Associated Press) WASHINGTON, Oct. 26 — The Japanese defeat handed the Japanese navy in Philippine waters to Washington and the nation today the cheering thought that the whole course of the war may now be changed and victory sought months nearer.

A Japanese defeat would mean that Japan is through as a naval power; that powerful American task forces which never have feared engagement with the enemy would be relieved of any trouble from sizeable naval forces.

And with such freedom of action relieved of any necessity of guarding against operation of the Japanese fleet—the American Pacific fleet would concentrate upon wiping out remaining enemy surface units and softening up Japan's island bases.

However, some naval observers inclined to check the reports damage against estimates of the size of the Japanese fleet. They point out that Japan has been credited with at least a dozen each of battleships and first-line aircraft carriers.

Adm. Ernest J. King, Navy commander in chief, before announcement of the American victory, had told newsmen that "practically all" of the Japanese fleet was involved in the Philippines action.

King indicated that two principal purposes might have been considered by the Japanese high command when the enemy fleets turned toward the Philippines—(1) a junction of Japanese forces in the home land and those about to be cut off in the Singapore area by American invasion of the Philippines and (2) an effort to halt American liberation of the island group.

One illustration of the interlocking nature of all warfare is in an opinion expressed by strategists of the Army Air Forces that the Philippine sea-air events will help reverse the "grave" Japanese offensive threat to advanced bases in China of the U. S. 14th Air Force.

"As long as the enemy is faced with the threat of severe air losses in the Pacific, it appears he will risk as few aircraft as possible in either offensive or defensive air combat in China," an AAP authority said.

## Cope Wins Support of Sharp For Judgeship

LISBON, Oct. 26.—Judge Joel H. Sharp discussed world affairs at a meeting of the Mid-County Republican club last night in the village hall.

County candidates attended the session at which Chairman Howard Cole of Lisbon presided.

Judge Sharp concluded his talk with an endorsement of Milton C. Cope of Lisbon, Republican candidate for probate judge on a non-partisan ticket, criticizing the other candidate for the office, Atty. Edmund Peters of Salem, for information on his campaign literature that the jurist was endorsing his candidacy.

The judge said that the use of his name on the Salem attorney's literature was unauthorized.

## Mistaken Identity

NEW ORLEANS, Oct. 26.—Capt. Lewis DeWeese, Commercial Airlines pilot, a native of Kent, O., said at a hotel here where he was being treated for wounds received during last week's uprising in Guatemala, that it seemed to be a case of mistaken identity. Neither side was too careful at what they were shooting."

### War Reporter Victim Of Jap Bomb On Leyte

SAN FRANCISCO, Oct. 26.—Asahel (Ace) Bush's luck ran out yesterday. The 31-year-old Associated Press war correspondent was killed by a Japanese bomb at Tacloban, liberated capital of Leyte island in the Philippines.

Bush was the 10th civilian newsman killed in the Pacific theaters but the first Associated Press man to die in the line of duty in that area.

His tour of duty in Australia in-

### More Comfort Wearing FALSE TEETH

Here is a pleasant way to overcome loose plate discomfort. FAS-T-EETH, an improved powder, sprinkled on upper and lower plates holds them firmer so that they feel more comfortable. Not only does it have a good taste or feeling, it's alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FAS-

TEETH today at any drug store.

## About Town

### Hospital Notes

Admissions to Salem City hospital include:

For medical treatment—  
Mary Kufleitner of Hanoverton.  
Howard Bowers of New Waterford.

Benjamin Johnson, R. D. 2, Salem.

Samuel Thompson of Youngstown.

For tonsillectomy:  
Marilyn Dowling of Alliance.

### Fined After Car Upsets

Richard Beiter of Damascus, involved in an accident at the intersection of Route 14 and W. State st. at midnight, Tuesday, was fined \$100 and costs on a charge of driving while intoxicated when arranged in Mayor R. R. Johnson's court yesterday. Beiter's car turned over after hitting a pole as he failed to make the turn onto Route 14. He was treated at Salem City hospital for minor injuries.

### Repeat Halloween Warning

Police today repeated their warning to vandals guilty of Halloween pranks after motorists had complained to Mayor R. R. Johnson that tires on automobiles had been deflated, causing damage when the owners drove away without knowledge that the tires were flat.

### Truck Driver Fined

William C. Lausburger, 24, of Elton, was fined \$15 and costs in Mayor R. R. Johnson's court yesterday following his arrest by state patrolmen on a charge of driving a coal truck at an excessive rate of speed.

### Recent Births

At Salem City hospital:  
A daughter yesterday to Mr. and Mrs. Raymond Moff, 1383 E. State st.

At the Clinic:  
A son yesterday to Mr. and Mrs. Thomas Fraser of Leetonia.

### Grange Plans Party

An old fashioned Halloween dance will be held at the Guillord grange hall Friday evening. Plans for the party suggest gingham dresses for the women and overalls for men. No masks will be worn.

### Building Permits

A building permit has been issued to Mrs. Cora Moss for construction of a garage-workshop at a residence at 680 E. Seventh st. Costs are estimated at \$600.

### PLAYERS SEEKING NEW HEADQUARTERS

Although successful in almost every other way the Salem Players club again is faced with the now familiar "housing problem."

An expansion of activities by the Veterans of Foreign Wars has resulted in arrangements by that organization for taking over the rooms in the Woolworth building that have been occupied by the Players club for the last several months.

A committee is being named to investigate a number of suggested locations where meetings and rehearsals may be held, and an appeal is being issued for assistance along this line.

In spite of this problem, however, the club is going ahead with plans for the presentation of "Stage Door" later in November and Dickens'.

## The War Today

By DeWitt MacKenzie

(Continued from Page 1)

the Mikado's forces, but there's another element present in the Allied set-up which isn't so obvious. That's the vast aid which Gen. MacArthur is receiving, and will receive increasingly, from the Filipino population of some 17,000 in defeating the Japanese.

Probably we shall be smart not to assume that all Filipino love us and will work for us. However, a multitude of them will give us their aid, and MacArthur is reported to be receiving invaluable assistance from them already.

Some of the aid will be military, for guerrilla bands have been operating against the Japanese ever since the brigands of the Orient invaded the Philippines. From the days of Bataan, terrorized bands of Filipinos have been operating out of their hill and jungle fastnesses to harry and slay the Japs.

Other Filipino help will be in material things, and the archipelago is rich in much that MacArthur will need. However, a highly important part of the assistance will be neither in fighting nor in supplies but a contribution which will be under cover.

This will be the spying out of information about the Japanese forces as MacArthur extends his occupation into the great island of Luzon from which the Allies will be able to lash out at the Japanese from all directions. Working under cloak of secrecy the Filipinos will act as ears and eyes for the American forces—a tremendous help.

### OBITUARY

### KEYES RITES

**MANY NEVER SUSPECT CAUSE OF BACKACHES**

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly by applying this old treatment. The cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and wastes out of the blood. They remove them through the urine. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg cramps, stiffness, enlargement of the kidneys, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passing with smarting and burning sensations shows that there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Dose-A-Pills, used successfully by millions for over 40 years. They quickly help you feel well and will help the 15 million suffering daily from cut poison waste from your blood. Get Dose-A-Pills.

# Ironton School Students Out On Strike Over Suspension

## GRID SEASON STOPPED FOR INELIGIBILITY

**Students Uphold Rule of Their Board Over the Athletic Association**

(By Associated Press) IRONTON, Oct. 26.—Ironton High school students who refused to attend classes in protest against suspension of their football team from competition by the Ohio State Athletic association insisted today they would not return "until they got results."

Principal O. C. Webb said "over half" the school's 800 pupils staged the strike yesterday as an aftermath to the association's action.

Association Commissioner Harald Emswiler said in Columbus, meanwhile, that the suspension would stand. "Ironton played an ineligible player," he said, adding that "The association is not responsible for ineligibility."

Emswiler identified the player as Robert Miller, a transfer student he said would have been eligible for play Oct. 12, three days after the suspension.

He explained that an association rule prevents students from transferring from Parochial to Public schools from engaging in association competition until a year after the change.

Kenneth Hixon, a junior classman, said the strike was called despite an appeal in assembly by Coach Charlton (Shorty) Davies for students to avoid a demonstration.

"The kids met on a corner near the school at noon and agreed not to go back until they got results," Hixon said.

Webb said he and John A. Miller, school superintendent, had questioned the use of Robert Miller but that the board of education passed a resolution, terming the ruling unjust "in this particular instance."

"Board members felt," Webb said, "that since he had missed all association competition last year, and had transferred to this school by his own free will in the first place, it was unfair to bar him from any games this season."

Miller played with the Ironton Tigers in three association games this season.

## SPORT CHATTER

By HUGH FULLERTON, Jr. NEW YORK, Oct. 26.—In a High school football game at Chippewa Falls, Wis., recently the two teams lined up facing the wrong goals after a score and didn't discover it until Bloomer High school carried the winning touchdown over the wrong line. Then the hollering began but officials decided to allow the tally and to finish the game the wrong way. And in Ohio a Youngstown Ursuline halfback was going for a touchdown when a Sci- enceville sub, ready to go into the game, dashed out from the sidelines and tackled him. Also in Ohio, Ted Himes of Mt. Blanchard insisted on kicking the extra points bare-footed. He made three out of four tries.

**ONE-MINUTE SPORTS PAGE** It may be catty to mention it, but Michigan State's football team already has played the Scranton Ternets, the Wildcats of Kentucky and Kansas State and soon will meet the Missouri Tigers.

**CONFIDENCE NOTE** When Georgia Tech's "Dunkies" Bowen went in to try for that field goal that beat Navy last Saturday, Assistant Coach Bobby Dodd patted his back and asked if he thought he could make it. Said Bowen: "You wouldn't be sending me in if you thought I couldn't, would you, coach?"

**Trojans Are Likely Rose Bowl Machine**

LOS ANGELES, Oct. 26.—Based on what they've been doing lately, the Southern California Trojans appear to be the likely nominees from the west for the Rose Bowl game New Year's day.

They haven't lost a Pacific Conference game and they've won only one. UCLA tied them, 13-13, and so did California 6-6. California beat UCLA, 6-0, and meets Washington Saturday in Berkeley.

The Trojans disposed of St. Mary's Pre-Flight, 6-0, and nobody thought much of that until the following week the Pre-Flights soundly whipped UCLA. The way Southern California thumped Washington Monday night, 38-7, stamps them as the hottest team on the coast right now.

## DISTORTED-T HAS LAYDEN BOOSTING CLEVELAND RAMS

**Football Official Says They Are the Team To Be Reckoned With**

CHICAGO, Oct. 26.—Those Green Bay Packers may be booming along at the head of the National Football League's Western division today, but says Commissioner Elmer Layden they can't be counted in until the Cleveland Rams are counted out.

Remember, the Rams were just about counted out before the season

Principal O. C. Webb said "over half" the school's 800 pupils staged the strike yesterday as an aftermath to the association's action.

Commissioner Harald Emswiler said in Columbus, meanwhile, that the suspension would stand. "Ironton played an ineligible player," he said, adding that "The association is not responsible for ineligibility."

Emswiler identified the player as Robert Miller, a transfer student he said would have been eligible for play Oct. 12, three days after the suspension.

He explained that an association rule prevents students from transferring from Parochial to Public schools from engaging in association competition until a year after the change.

Kenneth Hixon, a junior classman, said the strike was called despite an appeal in assembly by Coach Charlton (Shorty) Davies for students to avoid a demonstration.

"The kids met on a corner near the school at noon and agreed not to go back until they got results," Hixon said.

Webb said he and John A. Miller, school superintendent, had questioned the use of Robert Miller but that the board of education passed a resolution, terming the ruling unjust "in this particular instance."

"Board members felt," Webb said, "that since he had missed all association competition last year, and had transferred to this school by his own free will in the first place, it was unfair to bar him from any games this season."

Miller played with the Ironton Tigers in three association games this season.

**Splits Offense, Defense**

In fact, he added, "They're playing a distorted T-formation that, with the material they have, appears to be more potent than the offense of any other club."

Layden explained how Cleveland's "Distorted-T" works to spread the Defense before line plays and pull it back in for end runs and passes.

Layden praised the club's pass-defense as the best he has seen in several years.

Hutson couldn't get a touchdown pass, and he stole the ball from him on his first receiving attempt.

Cleveland was on the war-time shelf last year, with the few players it had out, on lend-lease to active clubs.

# YOU GOTTA THINK QUICK

*By Stanley Paley*

Copyright, 1944, N.E.A. Service, Inc.

One of the men who had glanced at Ginger as he walked in was still trying to catch her eye. I shifted my chair a little so that to make it impossible. But it wasn't really necessary. She was all wrapped up in what I had to say. Once a woman's curiosity is aroused she likes to have it satisfied.

She was amazed I'd come this far with so many strikes against me. A good-looking dame in my position wouldn't have found it so tough. But what did a fellow do?

"While you are strutting your stuff at Minsky's," I said, "I was eating my heart out in a place called Harris, Ferguson and Company, the lousiest joint that ever unloaded cheap crap on Five-and-Tens."

I had only to mention the place in order to feel some of the old resentment.

"I don't know if you can understand it, Ginger," I continued, "but for a fellow like me it was like putting race horse to work in a coal mine. It's not that I was afraid of work. On the contrary, I had a terrific, burning ambition. I was going to show the world. I was going to make a name for myself. But shoving goods around for twelve bucks a week! Being bawled out by a no good son-of-a-gun with a big cigar in his face."

"Yes. Inside of me, Ginger, there were sorts of things burning to come out. I don't know how to explain it to you, but I wasn't an ordinary guy. I wanted to compose music but had to forget about it because it takes lots of study, and you're not at all sure you'll be able to make a living that way. Maybe they don't recognize you until after you're dead. But believe me, Ginger, at that time I wouldn't have minded that. If I'd only known I'd have enough dough to live on, just enough to eat and keep a roof over my head. There was this terrific desire for expression that had to come out."

"And so it came out in another way. I realized I was good at sling words around. I had a fast comeback. And so I decided to become a lawyer. It's a good profession, Ginger. Even if it's nothing like composing music. You can go far, you can do good, and you can make money."

I must really have been in fine fettle, speaking in a low, tense voice with Ginger gazing at me, her chin resting on her cupped hands. All I need is an appreciative audience to get worked up.

I paused for breath, and then, leaning on the table, edge a little closer.

"You can see the set-up, Ginger. A young punk with brains stumbling up blind alley. A kid full of bitterness and hatred for the world that doesn't understand him. And that lasted for months. The same old routine: breaking my back and having the whip cracked over me. Doing work that required no intelligence whatsoever. But I didn't let it get me. You see, Ginger, I knew that some day I'd be doing what I wanted. Otherwise I think I'd have bumped myself off. There were times when I'd look out those dirty windows on the fifth floor of Harris, Ferguson and Company, and only see the soot and the grime. But beyond it was a city. And it was just as much my city as anyone else's...."

I stopped again to gulp some water down. For some reason this break in my speech brought a sudden change of mood. What was I doing? Giving Ginger a private audition of my memoirs? What for? She didn't give a damn about me.

"What the hell," I said. "All that's ancient history."

She looked at me with those big green eyes.

"What's got into you?"

"Nothing. Why?"

"You get me all interested and then you fold up. That's not fair."

"Maybe I'll tell you the rest some other time."

For a moment she didn't say anything. Then she opened her purse,
